RATIONALE

This project provides a tool that helps the students to improve their understanding of the global economy, increase the quality of their business decisions, and improve their management skills.

GENERAL DESCRIPTION

Project “Can I Sell My Product in Your Country”

There are many different countries and products for investors to choose from. However, there are limited resources with which they can do this. The more research an investor conducts on a foreign country, and a company’s products, the greater the chances of success the investment will yield. Your task is to investigate the feasibility of exporting a Canadian product into a foreign country and provide detailed information as to the viability of this venture. **This project is an individual effort.**

TIMING OF EVENT

This activity should begin just after mid-semester and continue throughout the remainder of the course.

PURPOSE

The purpose of this OBEA Contest is to allow the students to demonstrate their knowledge and understanding of international business from a Canadian perspective. The project will assist in their understanding of doing business in other countries and promote a greater understanding of the challenges that companies and countries face in today’s global environment. The research and information gathering for this project will allow students to meet many of the expectations of the course.

1. Students will gather information about doing business in another country.
2. Students will analyze the ways in which various factors influence how business is conducted in another country.

3. Students will examine the marketing challenges of doing business in another country.

ELIGIBILITY

1. This Contest is open to any student who is enrolled in or has successfully completed the course relating to International Business.
2. Each school may enter up to five (5) projects for final evaluation. The teacher should use his/her own professional judgment when submitting these projects. All projects should be submitted unmarked containing only the student's name and the name of the school.

Note: Participation in the International Business Contest can be used as a Specialized Business Certification or Experiential Learning Component in the completion of the SHSM program.

INSTRUCTIONS

Students will complete the project on an individual basis. **Teachers will provide a list of local companies that students can choose from in order to market a product to one of the countries from the list below.** The students should gather all of their information and create a final report with recommendations. **Any information must be cited.** The APA referencing style should be used for this report.

METHOD

Introduction and Rationale

Include a brief introduction of no more than two paragraphs. The first paragraph should include a brief introduction of your chosen country and the Canadian company (and/or product) you are proposing as an export possibility. The second paragraph will be a brief rationale highlighting the main reasons this company and/or product will be met with success in your chosen country. Additional details, statistical data, etc., can be conveyed in both the body of your report and/or the Executive Summary. The introduction and rationale serve the purpose of setting the context for your paper and capturing the attention of the reader(s) or potential investor(s) so that they may buy into your proposal.

All materials must be referenced using APA referencing .

Once you have determined what products your company sells, you will select a product sold by your company on which to base the remainder of this assignment.
